

The Teams and Players

Two Teams compete in a Game of Phute. One Team is considered the Defending team and the other is the Challenging Team.

Each Team may have a maximum of 15 Players allowed to participate in that Game. Players are chosen in advance and Teams may not add additional Players once a Game has started.

There are 5 Positions in phute. Players must be assigned a Position before the beginning of each Game, and Players may not alter their Position once a Game has started. The Positions are: Quarterback, Halfback, Fullback, Center, and Guard.

Each Team may have up to 2 Guards, 1 Center, 1 Fullback, 2 Halfbacks, and 4 Quarterbacks on the Field at any one time.

Players may be substituted at any time during the Game, although the original Player must be out of Play before the substituted Player enters the Field.
